Cave Tour Across World's Longest Underground Suspension Bridge

A cave right in the middle of (and underneath) a small town's historic district? Across the World's Longest Underground Suspension Bridge that spans a rushing subterranean river? Along a pathway that leads to 5-acre Sunset Dome, the area's largest dome room that recently reopened after 70 years? We've got that!

Mild - On their hour-long Public Guided Cave Tours, you'll hear about the history of the cave and the tiny town of Horse Cave that grew on top of it. Tours go out on the hour. No reservations required.

Wild - Call 270.786.1466 ahead to reserve a space on their **Off-Trail Adventure Tour**, a 3-hour extreme caving adventure with climbing and crawling. Or add to your adventure when you reserve space on the **Cave Entrance Rappel** down the 75-foot limestone face of the cave. The only cave rappel in Kentucky!

Cave Entrance Rappel

Above Ground

Over The Mouth of the Cave

Rappel one of the most spectacular cave entrances in all of Kentucky! Lower yourself by slow descent as you rappel down the 75-foot limestone face of Hidden River Cave. Ages 9 and up. Call ahead for availability.

American Cave Museum

Interactive Learning Fun

The Nature Conservancy called the American Cave Museum "a little bit of Smithsonian in rural Kentucky." We just call it fun, informative, and interactive. You'll learn about Cave Wars, Floyd Collins, karst terrain, and cave animals, all set in a background of pollution prevention and groundwater preservation. Part of the Hidden River Cave complex.
